

## APS Prize Winners for 2005

The following people were awarded the APS Prize for the student who gained first place at the end of an APS accredited program of four year's duration leading to a single qualification, or an APS accredited fourth year program in psychology comprising one year equivalent of study.

RECIPIENT	UNIVERSITY	THESIS TITLE
Emily Musgrove	Australian Catholic University	The relationship between social support and self-esteem in rural and urban adolescent males
Emma Thomas	Australian National University	After the Tsunami: Using opinion-based group identification, emotion and efficacy to create support for people in developing nations
Deannah Jang	Bond University	Construct validity of the McGill Pain Questionnaire
Kim Voll	Central Queensland University	Personality and social support: Their influence on accompanying spouse adjustment during international relocation
Mal Flack	Charles Darwin University	The role of attitudes, social norms and perceived behavioural control in gambling behaviour
Michaela Pitt	Charles Sturt University	Doorways and mirrors: Mothers perceptions of parenting their pre-teenage daughters in a "risk" and media rich society: A process-oriented exploration of positionally, reflexivity and dual role taking in a qualitative research study
Greer Bradbury	Curtin University	Emotion recognition and motor coordination difficulties in preschool children: A proposed inter-related model and practical application
Joel Godfredson	Deakin University	Social anxiety and alcohol use in remand prisoners: An application of community based research
Miriam MacLean	Edith Cowan University	Public perceptions of stepfathers' obligations to financially support their stepchildren
Jue Ying Lee	Flinders University	Effects of exposure to novel and familiar foods with 'disgusting' textures on subsequent willingness to try novel foods
Shannon Roberts	Griffith University	The influence of eye-witness evidence on confessions: Impact of accuracy and detail on a mock-suspects' decision to confess to an act of theft
Cathrine Grimsgaard	James Cook University	Syllable frequency effects in lexical decision, naming and handwriting of Norwegian words
Elizabeth Walkenhorst	La Trobe University	State worry, trait anxiety and working memory performance
Wendy Quinn	Macquarie University	Semantic overlap as the basis for response congruence effects with masked novel primes
Alicia Parsons	Monash University	Social predictors of safe and unsafe sex sexual behaviour: Condom attitudes, trust and communication
Lynette Mahboub	Murdoch University	Reifying the 'broken brain': Minds, madness and 'machines that go ping'
Natasha Moon	Queensland University of Technology	Patterns of cognitive development and growth from 1 to 4 years in extremely pre-term infants who require home oxygen therapy and those who are not oxygen dependent

Lisa Andrewartha	RMIT University	Pre-treatment attrition for problem gambling
Victoria Smith	Southern Cross University	Low-level luminance mechanisms and the two-stage perception of biological motion
Christine Raab	Swinburne University of Technology	What motivates out-group focused collective action? Testing the Dual Pathway Model of social movement participation with the Australian Refugee Movement
Ryan Balzan & Chrsi Lambos (Shared)	University of Adelaide	Human responses to non-contingency: Learned helplessness or illusions of control? Cognitive biases in gambling: The role of objective knowledge and gambling context
Kristy Francis	University of Ballarat	Rural adolescents' perceptions of barriers to seeking help for mental health problems
Debra Harris	University of Canberra	Body objectification and mental health outcomes in adolescents: The role of pubertal status, gender role and body satisfaction
Odette McDonald	University of Melbourne	Exploring the neuroanatomical basis of adaptive coding in the human prefrontal cortex using transcranial magnetic stimulations (TMS)
Cynthia Honan	University of New England	Strengthening our adaptive capacity: Memory usage promotes the survival of neurogenic cells in the adult hippocampus
Melissa Wood	University of New South Wales	The effects of $\kappa$ -opioid receptor antagonism on the acquisition of Pavlovian conditioned fear
Frances Raymond	University of Newcastle	Receiver operating characteristics in recognition memory for plurals: Evidence for a single detection account
Elisha Frederiks	University of Queensland	Strategic self-presentation and the intergroup sensitivity effect: Does response context moderate evaluations of group-directed criticism
Sarah Biggs & Rachel Whenan (Shared)	University of South Australia	Meta-cognitive ability to monitor driving performance after fatigue countermeasures The effect of the Pennebaker writing task on forgiving others and psychological well-being
Kim Sankey	University of Southern Queensland	Risk perception and personality predictors of young drivers' driving behaviour
Kim Kiely	University of Sydney	The mental number line: Investigating its spatial association and scale: Evidence from the Snare Effect
Kylie Wickham	University of Tasmania	The adaptation processes of Sudanese refugees in Tasmania: An investigation of helps and hindrances
Bradley Farrant	University of Western Australia	Specific language impairment, theory of mind, and visual perspective taking: Evidence for simulation theory and the developmental role of language
Philip Parker	University of Western Sydney	A test of McCrae and Costa's metatheoretical model of personality using a multidimensional approach to self-concept
Ryan Maloney	University of Wollongong	Differential viewpoint - dependent face recognition performance along two orthogonal axes
Jeffrey Stewart	Victoria University	The relationship between death anxiety and gender, sex-role, health locus of control and age
